Tailored Scalability: Small, Medium & Large Hospitals

FACILITY SCALE	OPERATIONAL BOTTLENECK	GenRAC IMPLEMENTATION
Small Healthcare (SHCO / Clinics)	Limited quality staff; reliance on external consultants & manual logs	Rapid Deployment: Pre-configured templates, automated license expiry & minimal admin load.
Medium Hospitals (Single-Site HCO)	Departmental silos, cross-team friction, tracking staff credentials & SOPs.	Departmental Workflows: Role-based access, auto-assigned tasks & live department scores.
Large Enterprises (Multi-Specialty Networks)	Multi-facility governance, varied audit cycles & patient data compliance (DPDPA).	Central Command: Consolidated dashboards, data compliance & 1-click network audit packs.
