GenRAC™ Platform

Regulatory Compliance Automation Platform

Your next audit should not be a crisis

GenRAC transforms regulatory compliance from a chaotic, last-minute sprint into a continuous, automated operating system for healthcare, pharma, and insurance organizations.

3,285+	90 Days	< 24 Hrs	Zero
Pre Loaded	To Audit-Ready	Gap-to-Owner	Audit Scrambles
Ready-to-deploy evidence	Baseline readiness score	Auto-assigned with SLA	100% pre-compiled packs

Tailored Scalability: Small, Medium & Large Hospitals

Traditional Compliance Gaps	The GenRAC
Manual Evidence Scramble: Chasing files across emails, chats, and spreadsheets weeks before an audit.	Automated Evidence Management: 3285+ templates with version control, document expiry alerts, and continuous mapping.
Invisible Audit Risks: Critical failures and lapsed controls surface only when an inspector flags them.	Live Continuous Scoring: Real-time compliance health tracking across departments, standards, and sites.
Audit Assembly Panic: Teams spend days manually compiling documentation binders	One-Click Audit Packs: Instant, inspector-ready submission packages structured to expected formats.

Supported Industries & Frameworks

Hospitals & Clinics

NABH HCO, NABH SHCO, Clinical Audits, and staff competency tracking.

Pharma & Life Sciences

GxP, 21 CFR Part 11, SOP mapping, batch records, and internal QMS.

Insurers & TPAs

IRDAI compliance, claims audit, grievance records, and statutory returns.

Cross-Industry

DPDPA 2025 data protection, consent governance, and breach protocols.

Multi-Site & RBAC
Centralized view across facilities with role-based governance.

Enterprise Security
Isolated tenant infrastructure, ISO 27001:2022 certified, and CMMI Level 3 SVCS.

Readiness Guarantee
Backed by managed compliance specialists to guarantee threshold readiness.
